DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 2, 31-37, 40, 45, 50, 63, 65 and 66 are drawn to Speech recognition, classified in class 704, subclass 270.
- II. Claims 3, 4, 7-30, 55-59, 61 and 62 are drawn to optical character recognition on the image frame, classified in class 345, subclass 7.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Group II are related as subcombinations disclosed as usable together in a single combination. Claims 1, 38, and 60 are linking claims and claims 39, 41-44, 46-49, 51-54 and 64 are common claims. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I has separate utility such as speech recognition and Invention of Group II Has separate utility such as Image recognition. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Roger A. Heppermann on August 9, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2641

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
